16TH ANNUAL ELK/WAPITI TERMINAL SIRE SALE

Monday 10th January 2022

Viewing from 10am | Sale by Auction 11am

- Elk/Wapiti Recorded Yearling Females
- Capital Red Velvet Stags
- Velvet Antler Red Yearling Females

bidr[®]

Foreword

All the team here at Raincliff Station would like to welcome you to our on farm Elk/Wapiti bull sale. We are very pleased with the continuous improvements to the stock we present to the commercial deer farmer who wants to capitalise on using a good all round terminal sire. We are particularly pleased with the way these animals have come through for this sale line up for January 2022, considering the challenges we have faced this past winter.

We continue with the same selection process that we do normally, and this year's group of sale bulls are all looking very even. The normal culling is taken from the recorded herd and has been done at 12, 18 and 24 month stages. The sale animals have been selected from the remaining stock.

You will see from the data shown in the catalogue that we have Eye Muscle Scan results, and have most of the figures that are important to the commercial deer farming operations.

We continue selecting through our stud herd and are very pleased with this year's line up. We have turned some of our focus to Velvet and Antler production to help out on not only having a high "BV" carcass animal, but producing early spiker velvet for you the buyers.

This season our R1 Elk eye muscle scanning results once again have lifted the average across our herd. The average live weight increased by 6kg (178kg) and a good proportion over 190kg, and a handful over the 200kg for the November weight.

The weight gain is what a commercial venison finisher is looking for to match the growth to meeting supply to the chilled venison market. With the current programmes from DINZ and joint ventures with the meat companies in place, we look forward to lengthening our chilled season. This is very exciting for us as Elk/Wapiti breeders as this will encourage (with good planning) the meat companies to achieve greater returns from venison per hectare.

As we all get used to capitalising on the use of EID, it will not only help our individual business prosper, but the industry as a whole, making it a greater tool for on farm production and targeting the product at the right spec at the right time of year to maximise returns back to the farmer.

The three-year weight of these Bulls we are very pleased with, they are a nice even line-up. It is looking like there will only be a handful weighing in under 300kg on sale day.

I am a great believer in being market led. New Zealand farmed raised venison leads the way in this concept, but it will need continuous discipline between the

marketers, processors and the farmers going forward if we are to improve on the current returns when we return to normal trade post covid-19 in our overseas high end markets.

The continuous strive of improvement in genetics, we are achieving what I call the ideal terminal venison sire. In doing so, we are producing good solid animals with good bone structure, condition, temperament, doing ability and easily moved from here to their new farm environment. As an added bonus they also crop reasonable velvet production.

You will notice at the conclusion of this year's Elk Bull sale we are offering a selection of Elk/Wapiti yearling females with good growth rate traits, eye muscle and antler genetics.

On offer we have a selection of Red yearling females with good velvet antler genetics. We also have a genuine offer of capital stock of Red velvet stags, which are all cutting weight for age and above.

We would like to take this opportunity to thank family, friends, past and current staff for their continued support throughout the last twelve months. Any prospective clients are welcome to visit prior to sale day. Either call David or one of the agents on the back page. Wishing current and future purchasers a Merry Christmas and a prosperous new year.

Kind Regards,

David, Janet and Family.

Conditions of Sale

1. Sale will be conducted by PGG Wrightson, according to the NZ Stock and Stations Agents Association of Sale
2. Intending purchasers are required to register at the office to receive a buyer's number.
3. Due to operating at Level Orange within the Covid-19 Protection Framework, we will require all visitors to present their vaccination pass upon arrival and also scan our COVID Tracer QR Code.
4. Each Lot shall become the property and responsibility of the purchaser when sale is declared.
5. Terms are cash unless prior arrangements have been made with PGG Wrightson.
6. Sale will be conducted GST exclusive.
7. Delivery instructions must be filled in and given to our clerks.
8. 4% commission to outside stock companies of independent introducing buyers prior to commencement of sale.

Disclaimer

All details and descriptions as to stock referred to in the catalogue have been supplied to PGG Wrightson, its employees and agents make no representations or warranties to acknowledgement of any kind whatsoever in relation to any part of this catalogue (including, but not limited to the accuracy or completeness of details and descriptions of stock and the information and other contents).

Purchasers, advisors and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and the information in the catalogue.

PGG Wrightson, its employees and agents are not responsible or liable in any way whatsoever, whether in contract tort (Including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information representation included in our omitted from the catalogue.

Transport

We are supplying transport with Downlands Deer or ourselves throughout the South Island. If this is not your preferred option then please ring David Morgan to discuss options.

TB and Johnes

All Sales Bulls Paralisa Blood tested Johnes Negative. TB Status C10.

Grazing

Grazing is available for a limited period while making transport arrangements. All care and no responsibility.

Animal Health

All animals will have received cydectin injection, Hi-min oral drench and a 20 gram copper bullet when cutting regrowth prior to sale. This we would recommend again post rut.

Guarantee

If a bull is proven to be sterile within 12 months of purchase it will be replaced by an animal of similar quality. This guarantee refers specifically to sterility and not to any condition due to accident or illness.

Bull Inspection

Prospective buyers are welcome to visit prior to sale day. Please make arrangements with either your livestock agent or directly with David Morgan. Inspection on the day is from 10am.

Insurance

Insurance facilities will be available on the day. Timaru FMG's team; Abbie, Nick and Simon.

Refreshments

There will be morning tea before the sale and a venison BBQ after the Auction.

Growth Rates

You will notice we have put growth rates from birth, we do not tag or weigh at this time. We have put a normal birth weight in at 15kg and a nominal average birth date of 8th December. I would like to think this is a fair average.

Weights

We weaned this year's crop of Sale Stags early March 2019, and weighed, which is quite early for us. The next weigh was in September 2019, then October and then in December 2019. This gives us a good indication of their spring growth rate, turning grass into carcass weight. We are very pleased with the performance of this crop of yearlings at this stage.

We have continued to eye muscle scan all the yearling stock giving us another tool for selection criteria. We have also D.N.A all Elk/Wapiti stock on the farm to help improve future breeding decision, as to that you will notice we have done an Elk% for all Bulls for sale, which is run through Genometer and Genomnz Invermay.

Fertility Tests

All of this year's sale bulls have been physically inspected. The semen has undergone a microscopic evaluation for mobility the percentage of live sperm within the sample and morphology, the percentage of normal versus abnormal sperm within each sample taken. This evaluation is another tool to give the purchasers confidence in our stock as we are always striving for continuous improvement in what we do.

Want a drafter on a stick? Problem solved.

HR5 Hand Held EID Tag Reader & Data Collector

- Scan and record electronic tag numbers at the click of a button
- Sort on the go with colour coded draft groups
- Add a visual ID tag number to the EID record in the yard
- Add and edit data such as temperament scores and animal notes
- Link mothers to their offspring as soon as their EID tag is added
- Alpha-numeric keypad and large screen for quick and easy data entry

Online Auction with bidr®

This sale will be hosted by bidr® (www.bidr.co.nz) as a HYBRID auction, with online bidding and a live-stream available on sale day, as well as the normal on-farm format. All intending ONLINE purchasers must register on bidr® in advance of the sale date, by visiting the website and using the “sign up” button, adding their contact information and nominating the agency they would like to purchase through and account held with that agency. Alternatively, purchasers can organise an agent from one of the agencies listed on bidr® to buy on their behalf. The bidr® team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from the Waikato. Please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point. Alternatively, contact your local bidr® representative:

Keep calm in the shed

For quieter, calmer, stress-free days in the shed, make the change to quality deer matting.

Anti-slip, non-abrasive, soft on the hoof and quiet underfoot, our durable matting ensures deer are calm and easy to handle. For healthy deer and healthy returns, trust Numat matting.

Call us for a free consultation today.
0800 686 119 or email info@numat.co.nz
www.numat.co.nz

"Numat has been in our sheds for a number of years. It provides a quieter environment for deer handling, minimises injury, and is easy to clean. We have no hesitation in endorsing Numat."

WHEN YOUR ADVICE IS REALLY GOOD, EVERYONE LISTENS.

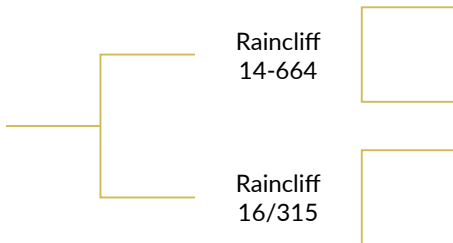

At FMG, we look after more rural New Zealanders than any other insurer. In fact, it's something we've been doing for 114 years now. So when it comes to offering specialist advice, like protecting deer sheds and farm buildings, we like to think we know what we're talking about. Ask around about us. Or better still call us directly on 0800 366 466.

We're here for the good of the country.

684	4.85
685	4.75

Average Velvet Weight: 4.19

Lot: 15

4 Year Olds

Tag #	Velvet Weight
688	4.2
693	3.95
694	4.2
697	4.25
698	3.95
706	4.45
730	3.95
780	4.05
796	4.25
797	3.95
809	4.2
814	4.1
823	4.3
835	3.65

Average Velvet Weight: 4.1

All of the above Red Velvet stags should shift well, as these have all just come through a very tough winter and I believe this is reflected in their velvet weights.
