Welcome to our 2022 on farm sale at Tikana.

The deer industry feels to be in a good space. The velvet sector is certainly buoyant and the negative impact of Covid on venison looks to be over. The normal post game season schedule drop has not happened and rather than bottoming out it is actually rising. This augers very well for the 2022 spring schedule.

On the genetic front the industry is poised for a quantum leap with the launch of DEERSelect Mark II due in early 2022. All breeds (red and wapiti) will be on the same page and therefore values for any one trait will be directly comparable. Also a raft of improvements have been introduced which include new fertility traits, \$ values updated to current times and a platform to make access more user friendly for breeders and commercial farmers alike.

Sharon McIntyre has a huge input into DEERSelect for the industry but we would also like to acknowledge a quiet achiever who has played a massive role behind the scenes and that is Sheryl-Anne Newman. Sadly she passed away in November. The deer industry will benefit from her input for many years to come.

We are proud of this year's line-up and believe the quality on offer speaks for itself. Make sure you know the direction you want to head with your deer farming operation. Choose a stud breeder who is making genetic improvements in those traits that will help you achieve that direction.

A Genetic Trend Graph shows how a breed is performing over time for any particular trait. In the following pages the green line shows the progress of 23 Wapiti herds and the dotted line shows how Tikana is performing relative to those other Wapiti herds.

We thank past purchasers and welcome you and new buyers to our 2022 offering.

Dave Lawrence & Donna Day

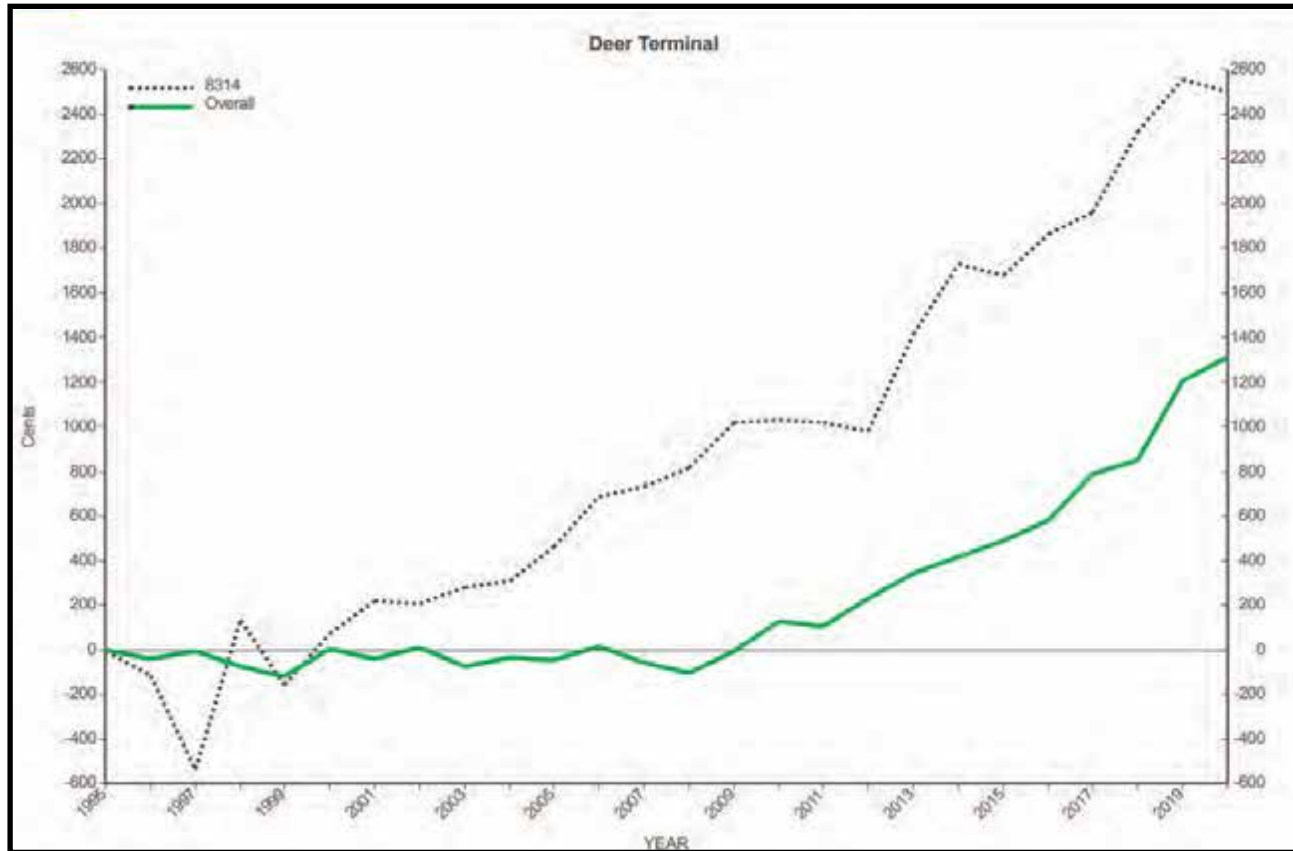

www.tikanawapiti.co.nz

GENETIC TREND GRAPHS

The solid green line represents the Wapiti average (23 herds). The dotted line is Tikana herd average (Herd number 8314)

TERMINAL INDEX is a combination of growth and meat traits economically weighted. It represents how many more \$/hind mated a Wapiti bull will make you.

MEAT = Eye Muscle Area = EMACEBV

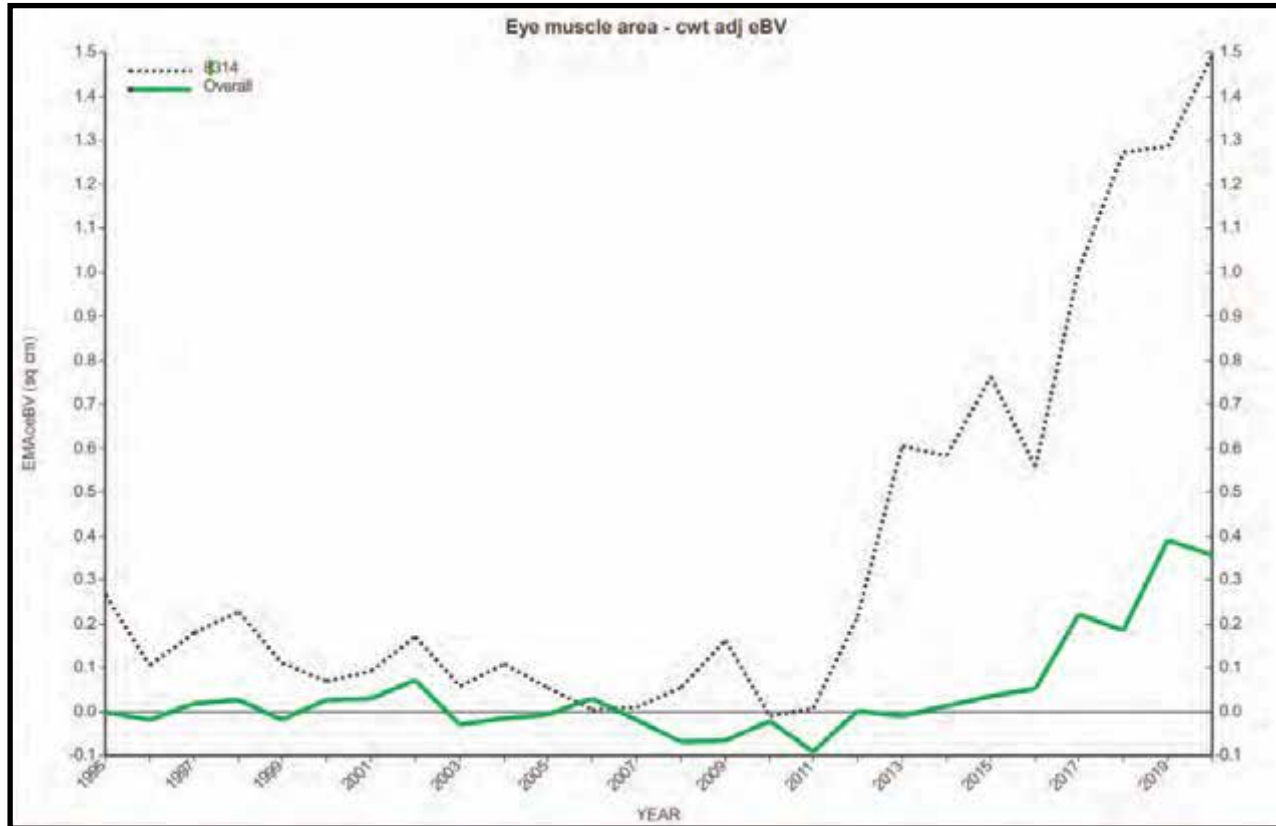

How much larger eye muscle/backstrap in cm² than the average 2005 Wapiti.

Selecting for this trait increases the yield of the higher value carcass cuts.

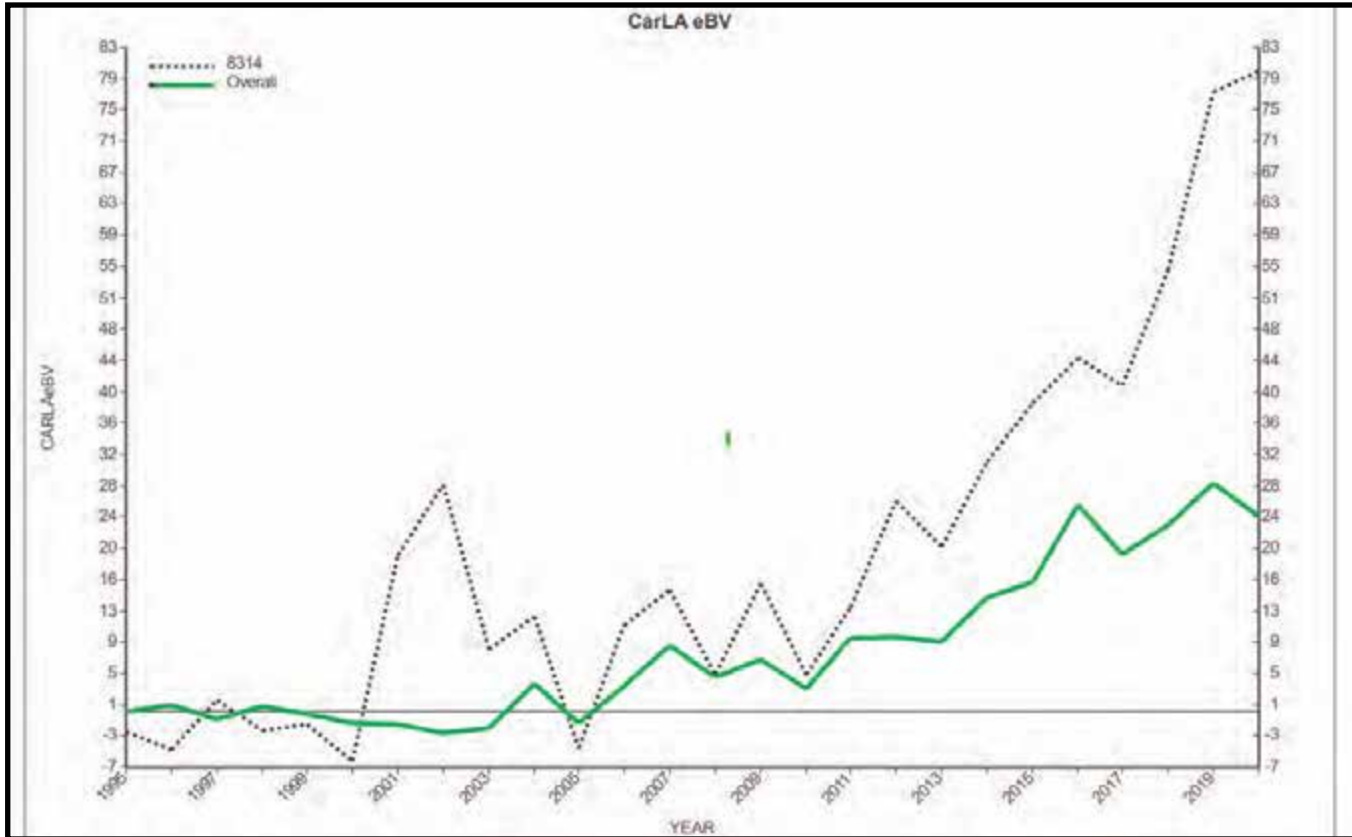

Selecting for this trait increases the meat to bone ratio

Selecting for this trait increases the dressing out percentage

Selecting for this trait increases tenderness of venison and eating quality

PARASITE RESISTANCE = progeny of high CARLA sires grow faster, cope better with parasite challenge and shed less eggs and larva onto pasture

WE ALSO SELECT FOR:

GROWTH = Yearling Weight = WT12eBV

How many kg heavier at 12 months old than the 2005 Wapiti average

MEAT = Carcass Weight = CWeBV

How many more kg of carcass than the average 2005 Wapiti

VELVET = Mature Velvet Weight = MVWeBV

A photograph of several deer in a green field. The deer in the foreground are looking towards the camera. They have green ear tags with the word 'TIKANA' and numbers. The deer on the left has tag number 429. The deer in the center has tag number 420. The deer on the right has tag number 431. The background shows a line of trees.

WHEN YOUR ADVICE IS REALLY GOOD, EVERYONE LISTENS.

At FMG, we look after more rural New Zealanders than any other insurer. In fact, it's something we've been doing for 114 years now. So when it comes to offering specialist advice, like protecting deer sheds and farm buildings, we like to think we know what we're talking about. Ask around about us. Or better still call us directly on 0800 366 466.

We're here for the good of the country.

ONLINE AUCTION WITH bidr®

This sale will be hosted by bidr® (www.bidr.co.nz) as a HYBRID auction, with online bidding and a live-stream available on sale day, as well as the normal on-farm format.

All intending ONLINE purchasers must register on bidr® in advance of the sale date, by visiting the website and using the “sign up” button, adding their contact information, nominating the agency they would like to purchase through and account held with that agency. Alternatively, purchasers can organise an agent from one of the agencies listed on bidr® to buy on their behalf.

The bidr® team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from the Waikato.

Please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point. Alternatively, contact your local bidr® representative:

GENETICS AT TIKANA

Our breeding objective at Tikana is to make a difference to the New Zealand Deer Industry by producing genetically superior animals for the benefit of other deer farmers.

The Tikana herd has been fully recorded on DEERSelect since 2005 and where appropriate we have been selecting based on eBV's (estimated Breeding Values) generated since 2010. An eBV is the genetic merit of an individual for a given trait once all environmental factors are removed. eBV's put a figure on the genetic worth of an animal for a given trait and indicate the amount that the progeny of that animal will gain or lose for that trait. They are an invaluable tool for selection.

Aside from the obvious conformation and temperament traits we select for:-

GROWTH = Yearling Weight = WT12eBV = How many kg heavier at 12 months old than the 2005 Wapiti average

MEAT = Carcass Weight = CWeBV = How many more kg of carcass than the average 2005 Wapiti

MEAT = Eye Muscle Area = EMaCeBV = How much larger eye muscle/backstrap in cm² than the average 2005 Wapiti.

Selecting for this trait increases the yield of the higher value carcass cuts.

Selecting for this trait increases the dressing out percentage and the meat to bone ratio.

Selecting for this trait increases tenderness of venison and eating quality.

TERMINAL INDEX = combination of growth and meat traits economically weighted. It represents how many more \$/hind mated a Wapiti bull will make you.

PARASITE RESISTANCE = the Antibody produced in saliva that occurs in response to parasite challenge = CARLA10eBV = progeny of high CARLA sires grow faster, cope better with parasite challenge, reduce pasture contamination by shedding less eggs and larvae.

VELVET = Mature Velvet Weight = MVWeBV also beam diameter and style. NB This is within herd only as no Wapiti herds are connected for velvet.

The official published Wapiti Across Herd Sire Summary now means the eBV's for growth, meat and terminal index can be directly compared across Wapiti herds. Using the official December 2021 DEERSelect summary of all 2018 born Wapiti (1485 deer in total) as a reference point, the table below shows where this year's offering of Tikana bulls rank. Parasite resistance (CARLA) is comparable with all Wapiti herds except Clanchanburn because they are not adequately linked.

top 2%	
top 10%	
top 25%	
top 50%	
below 50%	

The colour code for the percentile bands for traits and Index is based on all Wapiti on DEERSelect born in 2017 or 2018 as the case maybe

Please note the eBV values in our catalogue are only comparable to other Wapiti herds. Across breed eBV's should be available early 2022 and will put Wapiti and Red deer on "the same page"

Standardisation of Catalogue information

A consensus has been agreed to between Wapiti breeders regarding parameters for performance data entered in our sale catalogues. We have all agreed to use standardised weighing times. Growth rates will be based on actual birthdates (or derived from foetal aging), estimated birth weights of 17kg for male calves and 15.5kg for female calves and their 12mth/December weight.

Animal Inspection

Inspection prior to sale by arrangement with Ben Beadle, or Dave Lawrence. On the day of sale, stock may be viewed from 2.00pm.

Velvet

Velvet from sale bulls will be on display on sale day and remains the property of the vendor. Velvet can be viewed but not handled under the Covid traffic light system.

Tb Status

Tikana has a C10 status. Last whole herd test was completed on 8/8/2019 and no longer whole herd test as we are in a Surveillance Disease Control Area.

Grazing

Grazing is available for a limited period, while purchasers await transport arrangements. Any grazing arrangements must be made with PGG Wrightsons office on sale day. All care and no responsibility. All deer must be insured.

Insurance

Transit and Livestock Insurance is recommended. Insurance agents will be present on the day to meet your requirements.

Guarantee

If a bull proves to be sterile, it will be replaced by an animal of similar quality or the purchase price refunded. The guarantee refers specifically to sterility and not to any other condition due to accident or illness. No claims after 12 months of sale.

Covid

Under the new traffic light system for Covid, you must be double vaccinated to attend the auction in person. Please bring your Covid Vaccination Pass. Please scan in on our QR code on arrival and when appropriate masks should be worn.

CONDITIONS OF SALE

1. The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.
2. Each lot becomes the purchaser's property and risk at the fall of the hammer.
3. Warranties and Insurance are covered under separate headings.
4. Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.
5. The sale is conducted exclusive of GST.
6. A buyers commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements (No later than 24hrs prior to sale) are made with PGG Wrightson.
7. Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.
8. Except as otherwise expressly provided in these conditions, no guarantee, representation or warranty of any kind is made or given as to the soundness, condition or other quality of any livestock sold in this sale.

Disclaimer

All details and descriptions as to stock referred to in this catalogue have been supplied to PGG Wrightson by the vendor and have not been independently verified by PGG Wrightson. PGG Wrightson, its employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of this catalogue (including but not limited to accuracy or completeness of details and descriptions of stock {and other contents}).

Purchasers, advisers and all other persons viewing or dealing with the stock must make their own assessment on the stock and the information in this catalogue.

PGG Wrightson, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or any damage whatsoever arising directly or indirectly from any information or misrepresentation included or omitted from this catalogue.

Specialists in deer performance

PGG Wrightson Deer provide a comprehensive service to enhance the performance of your Deer property.

Our dedicated team of Deer Specialists operates throughout New Zealand, servicing all aspects of the Deer industry.

From Pasture to Processor, Venison, Velvet and Trophies, Breeders and Finishers, Stud and commercial Deer farmers, Genetics, buying and selling.

The expertise within the PGG Wrightson Deer Specialist team could prove invaluable in the management of your Deer property.

NOTES:

Genomic Opportunities for NZ Deer

For 25+ years GenomNZ has been conducting parentage analysis for the NZ Deer Industry. We offer a SNP based parentage test, containing tens of thousands of markers providing a more accurate parentage assignment.

This sequencing method provides precise genomic relationships and breed composition, as well as parentage analysis.

Ear tissue punches are our preferred sampling method (Allflex TSU). This sample type has been shown to provide both higher quality DNA as well as potential on-farm benefits.

Hinds and Stags

Profiling, breed composition
\$27.50 per sample
All prices excluding GST

Calves

Full pedigree, breed composition
starting at \$25.85 per sample

COMMENT:

CARLA® Saliva Test

Breed for better immunity to worms

Identify animals with a strong protective immune response to parasitic nematodes, including lungworm.

- Options for breeding animals capable of maintaining productivity under a parasite challenge.
- Talk to your stud breeder about animals with high breeding values for CARLA.

Terms for Lots 27 to 32

- Wapiti cows **Lots 27,28,29 & 30** will be mated to **Crypes**
- Wapiti cows **Lots 31 & 32** will be mated to **Roosevelt**
- Cows will be pregnancy scanned in May
- Purchaser will be liable for 25% of auction day bid at fall of hammer
- Balance due following notification of positive scan result
- Possession taken in June
- The 25% deposit will be refunded if Negative pregnancy scan

How good are these MA Wapiti Cows?

The Genetic Trend graphs at the front of the catalogue show where the average Wapiti herd sits for any given trait or index

- **Growth** (WT12eBV) the average of these six Tikana cows is almost **double** that of all other Wapiti herds
- **Carcass Weight** (CWeBV) the average of these six Tikana cows is more than **double** that of all other Wapiti herds
- **Meat** (EMAceBV) the average of these six Tikana cows is **over four times** more than that of all other Wapiti herds
- **Terminal Index** (TI) the average of these six Tikana cows is **\$28.12** which well **over double** that of all other Wapiti herds – twice the \$\$
- **Velvet** (MVWeBV) the top three cows rank in the top third of our herd. The cow with the lowest velvet BV has a son in the sale “Fandrai” who cut 7.8kg velvet @ 3 years.

Plus they will be mated too.....

SIRE REFERENCE

- **CRYPES** Two year old son of Crikey –The Across Herd Sire Summary (Dec 2021) lists all Wapiti bulls currently being used. Against all these sires Cripes ranks #3 for Growth (WT12), #3 Carcass Weight and # 3 for Terminal Index. He ranks #8 for Meat (EMA) and #9 for Parasite Resistance (CARLA)
- **ROOSEVELT** Son of Seattle – Whyte Farming Co Ltd
Seattle achieved a world record hard antler score (IOA = inches of antler) of 586 as an 8 year old
Roosevelt cut 9.7kg of EWSupreme as a two year old
14.4kg of EWSupreme as a three year old
