

35th Annual

SOUTHERN ELITE Elk/Wapiti Sire Sale

**Pullars
Littlebourne Farm Ltd**

1.00pm Start

**321 Devereaux Road
Winton**

Monday 15th January 2024

To all Deer Farmers

Greetings and welcome.

Our entry into breeding and selling high producing stud animals is no accident. Four generations of breeding stud sheep and dairy animals preceded our investment in the deer industry 45 years ago.

Our view is that breeding from our sires mated to Red, Hybrid, Fiordland or New Zealand Wapiti is the most efficient and profitable. We have been weighing and culling animals for 40 years and are now involved with **Deer Select**.

Exciting opportunities for buyers looking to take advantage of excellent demand for deer products abound in our offering for those upgrading their herd sires.

Please be reminded: –

- 1 You can expect low birth weight fawns that just keep growing.
- 2 No animals enter our breeding/selling programme have had assisted births.
- 3 All animals have a background of Fiordland Wapiti.
- 4 All sires have been blood tested for Johnes and are **negative**.
- 5 We take pride in that buyers from lifestyles to large farming operations are repeat clients.
- 6 Astute observers will have noted that Littlebourne Sires over 3 years feature in a nationally promoted Deer Select Wapiti.
- 7 Littlebourne Wapiti are not:
 - A Overfed
 - B Over promoted
 - C Over priced
- 8 Since 1987 we have showed quality velvet, our best effort Champion of Champions at the 2019 Elk/Wapiti Competition!
- 9 We value the support of agents, clients and associates over 45 years of deer farming.
- 10 Have a safe, happy and prosperous 2024.

Geoffrey & Sam

PEDIGREE

PRODUCTION

PROFIT

SOUTHERN ELITE ELK/WAPITI SIRE SALE on farm Devereaux Road Winton, Monday 15th January 2024

Sale commences 1:00pm

Velvet will be on display on Sale day

ANIMAL INSPECTION

Inspection prior to sale by arrangement with Ben Beadle or the vendors. On the day of the sale, bulls may be viewed from 12 noon.

T.B. STATUS

All bulls are from C10 Status (minimum) properties. Accredited for over 30 years.

GRAZING

Grazing is available for a limited period, while purchasers await transport arrangements. Any grazing arrangements must be made with the Agent's office, on sale day. All care and no responsibility. **ALL DEER MUST BE INSURED.**

INSURANCE

Insurance facilities will be available at the Agent's offices.

GUARANTEE

If a bull proves to be sterile it will be replaced by an animal of similar quality or the purchase price refunded. The guarantee refers specifically to sterility and not to any other condition due to accident or illness. (No claims after 12 months of sale.)

CONDITIONS OF SALE

1. Sale will be conducted by PGG Wrightsons, in accordance with conditions of sale as set down by the Invercargill Stock and Woolbrokers' Association, copy of which is exhibited at the sale venue.
2. Deer will be offered as catalogued, subject only to final draft.
3. Intending purchasers are required to register at the office prior to commencement of sale to obtain buyer's number and advise appropriate stock and station agents.
4. Each lot shall become the property and responsibility of the purchaser on the fall of the hammer.
5. Terms will be strictly cash before taking delivery of any animal unless prior arrangements are made with the Auctioneers. Accounts not paid within 14 days of the sale shall bear interest at current rate per annum from the date of purchase.
6. A buyer commission of 4% is payable to non participating companies and recognised independent agents introducing and with purchasers, with prior (24hrs) arrangements made with PGG Wrightsons.

PEDIGREE

PRODUCTION

PROFIT

7. Sale will be conducted G.S.T. exclusive.
8. Purchasers must give complete delivery instructions to the office, using one of the delivery instruction sheets in the back of the catalogue, and receive delivery docket before removing the animals.
9. The descriptions of deer in the sale are supplied by the individual vendor who alone is responsible for their accuracy.
10. Except as otherwise expressly provided in these conditions, no guarantee, representation or warranty of any kind is made or given as to the soundness, condition or other quality of any livestock sold in this sale.

DISCLAIMER

All details and descriptions as to stock referred to in this catalogue have been supplied to PGG Wrightson by the Vendor and have not been independently verified by PGG Wrightson. PGG Wrightson, its employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of this catalogue (including, but not limited to the accuracy or completeness of details and descriptions of stock [and other contents]).

Purchasers, advisors and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and the information in this catalogue.

PGG Wrightson, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from this catalogue.

All our velvet is grown to Wapiti One Grade or Supreme.

Not overgrowth, please note this.

To compliment our line-up, all the Dams listed are high achievers, great mothers that show after 45 years of recording the 'cream' always comes to the top!

SIRE REFERENCE

PURPLE 5

A son of Nepia

A top velveter at 2 yrs old 8.7kgs velvet. Died shortly after velveting as 2 yr old. Was going to be our main stud bull for years but died early.

In the top 2% for Eye muscle, Top 5% for Carla and within herd for velvet Ranked No 1.

Offspring is this catalogue are showing all these traits and more. Was over 500g / day from birth to 12 mths growth rate.

BLUE 15

A Mojo grandson

3yr old velvet = 11.4kgs

3rd in National 3yr Comp

Birth to a year growth rate 520g/day

Used at Littlebourn last 3yrs as a sire bull

BLACK 97

Grandson of Supremium

Over 400 kgs at 3 yrs of age, our biggest yet

7.7 kgs as a 3 yr old to over 16.5 as a 6 yr old

524 g/day growth from birth to weaning

Top all round.

PURPLE 3

A son of Nepia.

Top Deer select traits in CW Carcass wt, WIZ and Terminal Index.

Given the first calvers for first mating.

2yr velvet 5.7kgs and carried on as a top allrounder.

Sold to another top deer stud.

Ranked 2nd in 2017 born bulls for terminal Index

Genetics – use them to your best advantage.

The breeding objectives of your herd need to align with the breeder you buy your genetics from. The progress we are making in the traits that are relevant to you should be your focus.

At Littlebourne we select for:

- Temperament – zero tolerance
- Conformation – eye appraisal for body type, feet and jaw
- Growth – trait in Deer Select is WT12eBV – weight in kg at 12mth old
- Meat – trait in Deer Select is EMAAcBV – eye muscle area in cm²
- Carcass Weight – in Deer Select
- Parasite Immunity – trait in Deer Select is CARLA10eBV – the antibody response in saliva against pasasite challenge. High levels are associated with lower gut worms
- Velvet – Deer Select is currently revising their Wapiti Velvet Module and so actual velvet weights are presented in this catalogue
- Terminal Index – growth and meat traits are economically weighted and combined to give a single value in dollars

EMAcBV has been shown to be a very powerful trait in deer. Not only does it select for carcass composition – a greater proportion of the carcass in the higher value cuts but it also has a high correlation to dressing out percentage, the meat to bone ratio, venison tenderness and venison eating quality (texture, succulence and aroma).

The table below shows the percentile bands for CARLA, carcass weight, growth, meat and the Terminal Index. The percentile bands are based on all the 2020 born female and males of the 7 herds of Wapiti breeders on Deer Select. This is based on the official run of Deer Select in December 2023.

Once you know the traits that are most value to your operation the select for the bull with the darkest colour for that trait.

The Littlebourne herd has been recording for Deer Select since 2015 and back data has been loaded for previous years.

An eBV is the genetic merit of an individual for a given trait once all environment factors are removed; date of birth, age of mob etc. The W12eBV indicated the animals merit for growth to 12 months of age. EMAcBV indicates muscling. The Terminal Index is a combination of an animals merit of growth and meat – higher value indicates a greater return to a venison focused deer system. The Index is in \$/hind mated.

Standardisation of Catalogue Information:

A consensus has been agreed to between Wapiti breeders regarding parameters for performance data entered in our sale catalogues. We have all agreed to use standardised weighing times. Growth rates will be based on actual birth dates (or derived from foetal aging), estimated birth weights of 17kg for male calves and 15.5kg for female calves and their 12mth/December weight.

Please note first calvers are disadvantaged in weight 12 as fawns from first calvers are naturally smaller with milk production of first calvers being less therefore their growth rate will naturally be less. So first calvers on Deer Select – their fawns will have less W12 than MA cows.

Also an outside Bull not on Deer Select starts on O-zero so any sale bull to a sire bull that isn't on Deer Select has a naturally less EBV for all traits. Littlebourne is using 4 to 5 bulls in a mating year – one is generally not on Deer Select so that bulls offspring will naturally be disadvantaged – so please NOTE this.

Please note: the eBV values in our catalogue are only comparable to other Wapiti herds.
