Hello and welcome to the 2026 Clachanburn sale catalogue. A few obvious changes this year. We have returned to the A5 catalogue form. With the sale earlier this year it is a battle to get all the photos in time, and combined with the rising cost of the A4 format it seemed a logical choice. The other is the inclusion of the Montalto stud. We purchased this from John Bartholomew in Canterbury at the end of last year and after a hard shift down they seem to be settling in. Obviously, a different stud collects different data, so their section of the catalogue is not the same as the Clachanburn part. There was not sufficient information to enter them on to Deersselect with any degree of accuracy so there are no EBV's for these bulls.

Increasing the number of elk bulls on the property was very timely as elk velvet has been the beacon of hope in this year's velvet season. The elk have been the financial rock this year, with the velvet selling, the weaners being eligible for higher paying elk contracts and the trophy deer being in demand. With the purchase of the extra elk we have more trophies than we need for our own business this year, so will be selling the extras at a first ever on farm trophy sale on 13th February.

All up, we are happy that an animal that we have been singing the praises of for so long is paying financial rewards in all areas and we hope to share those benefits with our buyers! We look forward to seeing you on the 7th and hope that you manage to spend some time with friends and family over the summer months.

John and Mary Falconer
Clachanburn Elk

The Small Print

Guarantee

If a bull is proven to be sterile within 12 months of purchase it will be replaced by an animal of similar quality or the purchase price refunded. This guarantee refers specifically to sterility and not to any condition due to accident or illness.

Animal Health

All animals have received an oral dose of Cervidae drench and have had a 20g copper bullet prior to sale. This is recommended again post rut.

TB and Johnes

Our TB status is currently C10. All sale bulls were Tb movement tested in December and also Johnes tested negative with the paralisa test.

Grazing

Grazing is available for a limited period while making transport arrangements. All care and no responsibility.

Transport & Insurance

Purchasers to arrange transport at their own cost. Insurance facilities will be available on the day

Bull Inspection

Prospective buyers are welcome to visit prior to sale day. Please make arrangements with either your livestock agent or directly with John Falconer. Inspection on the day is from 11.30 am.

Accreditation

Clachanburn Elk is a Game industry board accredited deer farm

Farm Assured Livestock

We are audited for the NZ Farm assurance Program by AssureQuality

Refreshments

There will be a light luncheon before the sale and a venison BBQ and some beverages after the auction.

Conditions of Sale

1. The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.
2. Each lot becomes the purchaser's property and risk at the fall of the hammer.
3. Warranties and Insurance are covered under separate headings.
4. Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.
5. The sale is conducted exclusive of GST
6. A buyers commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements (No later than 24hrs prior to sale) are made with PGG Wrightson
7. Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

Disclaimer

All details and descriptions as to stock referred to in this catalogue have been supplied to PGG Wrightson by the vendor and have not been independently verified by PGG Wrightson. PGG Wrightson, its employees and agents make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of this catalogue including but not limited to accuracy or completeness of details and descriptions of stock and other contents.

Purchasers, advisers and all other persons viewing or dealing with the stock must make their own assessment on the stock and the information in the catalogue.

PGG Wrightson, its employees and agents are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or any damage whatsoever arising directly or indirectly from any information or misrepresentation included or omitted from this catalogue

This sale will be hosted by bidr® (bidr.co.nz) as a HYBRID ON-FARM auction, with online bidding and a live-stream available for online purchasers.

All intending online purchasers must register with bidr® using an account held with one of the bidr® partner agencies in advance of the sale date.

The bidr® team is available to assist intending purchasers with signing up and registering – please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point.

Statistics

%Elk

The figure shown is the Elk component of the breed composition from Genomnz.

Weights

We wean either in March or post rut in the first week of May depending on the age of the hinds. These weights were taken for the weaners in March, May, September, at eye-muscle scanning, at the end of October and then again in January for 13 month weight. All bulls kept are weighed again the following January and then at the end of December to give us an indication of adult weight.

Birth dates and growth rates

We use foetal age data where available to calculate birth date. Where not available, we have used an average calving date. This is marked with a * and this year is 07/12/2022. A nominal birth weight of 17 kg for Elk males has been used in line with other Elk studs.

EMA

The yearling animals were scanned for eye muscle area. Both an actual figure and the EBV for this are listed here. This is still not specifically financially rewarded and we have discontinued it from 2025 onwards.

Velvet Weight

Most of these bulls have been grown to a special Elk grade, which is grown out further than it has traditionally been and consequently heavier. However, in order to prevent damage during TB testing some were cut early and so their velvet weights are lower. It is something to be aware of when comparing velvet weights, especially between different studs.

EBV's

Deerselect has now has a raft of new Wapiti traits, but we have displayed the same EBV traits as previous year's in this catalogue. However, the Terminal index range is vastly different to other years. The linkage between wapiti herds is non-existent in all traits but growth and as the linkage has become weaker we are losing confidence in the comparison between farms. We are using inherd figures again and the percentile bands and colours are provided by Deerselect. They are for 2022 born animals and were current in December, purely across Wapiti herds, not any other species.

The animals are ranked for the sale catalogue data, not for the entire year group. EBV's were true as of 14 December 2025, but unlike growth rates and actual weights they will change as more information is added.

Carla

The CARLA Saliva test has been developed by AgResearch scientists as a tool for selecting deer with greater immunity to internal parasites. The test measures antibodies against worm larvae in deer saliva: animals with high levels of antibodies are better at preventing worms establishing in the gut.

Care for your bull

Make sure your bulls are out with the females nice and early, ie. mid to late February. Elk are more active early in the rut, so aim for a high percentage first cycle. This will also give you earlier weaners.

We recommend bulls removed late April to early May. May is the recovery month and dictates the next period, velvet growth. We give all sire bulls a drench and copper (and selenium if required) when they come out. Experience has shown us this is much easier done straight away... don't leave it for a fortnight.

Ensure they are in a safe and secure paddock with lots of feed. Supplement with Lucerne or equivalent. We repeat the health plan before button drop, early to mid-August.

Please talk to your velvet buyer before harvesting time. Elk velvet is very different to red velvet and should not be treated the same if you want to maximise the value you gain from it.

The Future

The exit of many terminal sire breeders from the industry has left us looking to breed enough bulls to supply the market. We are constantly balancing this with our trophy operation and the market for great velvet genetics that we supply overseas. The result is a breeding program aiming at an outstanding all round bull, and we believe we have a stud paddock full of them. The best part of this is watching the young bulls come through. The 4 year olds that we kept last year impressed us, but we can't keep them all! Now we don't have a large venison herd a lot more of the meaty bulls are for sale...along with some special antlered animals.

We have our first progeny by Nasa and Kahuna on sale this year. They both went to mobs of first calvers, so the offspring had lower starting weights, but their genetics should carry through. We are looking forward to seeing what the future generations produce.

Clachanburn Resolute and Nasa November 2025

Sire List

Arizona (OR11379): An unassuming looking bull that has left the fastest growing progeny we've seen. Sire of Tombstone, among others, he also leaves heavy velvet heads.

Bender (WH15281): A strong, stocky bull that has left some equally heavy progeny with big velvet heads.

BK14021: A big bull that hit over 200kg as a 13 month old and then grew an impressive velvet head and was amazing in hard antler.

Forecaster (417/14): Another Tikana bred bull. He is a very impressive son of Storm, with a big body and a lot of velvet.

Kahuna (RD18126): One of our younger sires, whose first progeny are here in the sale catalogue. He grows a great head of heavy velvet and has the matching big body.

Meads: A great cross of Littlebourne and Connemara genetics that has produced a big meaty bull that is pushing up EBV figures for growth. His progeny seem to be heavy with impressive growth rates.

Nasa: A Tikana bred bull, with Edendale's Seattle as his sire. He has impressed us with a fantastic heavy head of velvet and we hope he will carry his sire's trophy traits. A big bodied bull, his first progeny appear here, although are a bit smaller as he was put with 1st calver cows on his arrival.

BK14021

Forecaster

Meads

No. 1 (PK13001) & BK14339: Both sons of Boss they were both big and quiet with good heads of velvet. They have fast growth rates and heavy weaners

Seafire (PK13201): A stocky bull that has been leaving some impressive offspring. He grew a great head of velvet every year and was grown to hard antler last year

Spectre (WH15393): This son of Skyfall is a large bull that has some big heavy sons. He had a great even velvet head that grew into an impressive trophy.

Storm (913/09): Bought from Tikana stud as a 5 year old, we picked this son of Trilogy for his great body, heavy velvet and outstanding antler shape. He grew an incredible wide head of hard antler in the summer of 2021/22 that was outstanding to see.

Tombstone (PU16475): The winner of 2023 National Velvet competition. He cut over 20kgs of velvet last year, but has also been a fast growing big bodied bull leaving similar progeny. He seems to have it all, with fast growth rates, good EMA and amazing velvet. An incredible all-round bull.

Turbo: (241/12): A Tikana bull that came to us via the purchase of the Connemara stud. A son of Nepia he had a good velvet head and some heavy progeny.

YE17546: Another impressive Arizona son that tipped the 13 month scales over 200kg and had a massive 5yr velvet head at 26.5 in the beam and nearly 15kg. Unfortunately we lost him to a paddock accident before we could see his full potential.

and so much more....

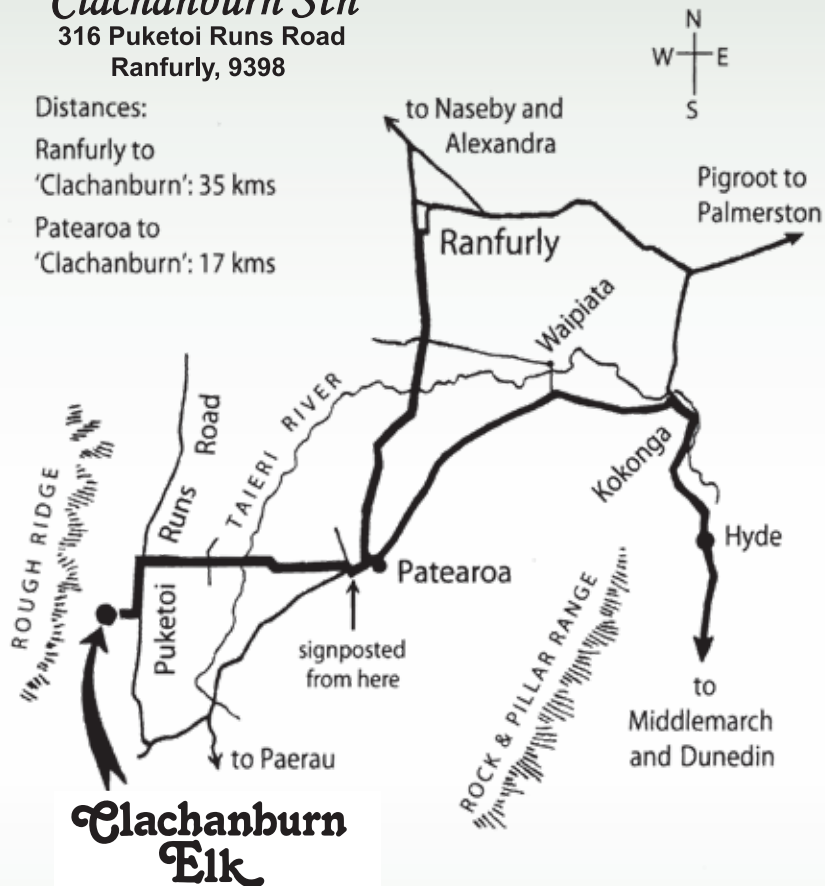

Clachanburn Stn

316 Puketoi Runs Road
Ranfurly, 9398

Distances:

Ranfurly to
'Clachanburn': 35 kms

Patearoa to
'Clachanburn': 17 kms

Travel from Ranfurly to Patearoa. At Patearoa cross Sowburn bridge, continue $\frac{1}{2}$ km then 1st turn right. After 200m take 1st turn left, cross Taieri River, drive towards hill (Rough Ridge) and at T-intersection turn left. Clachanburn is 3 km along, on right side of road. Signposted south of Patearoa.
