Foreword

Welcome to Raincliff

All the team here at Raincliff Station would like to welcome you to our on-farm Elk/Wapiti bull Sale. We are very pleased with the continuous improvements to the stock we present to the commercial deer farmer who wants to capitalise on using a good all round terminal sire. We are particularly pleased with the way these animals have come through for this sale line up for January 2024, when we take into account the challenging long wet winter these animals had after weaning and given that their paddocks were washed out during the floods 2021.

The continuous strive for improvement in our genetics that we are achieving is resulting in what I call the ideal terminal venison sire. In doing so, we are producing good solid animals with good bone structure, condition, temperament, doing ability and easily moved from here to their new farm environment.

The weight gain is what a commercial venison finisher is looking for to match the growth to meeting supply to the chilled venison market. With the current market programmes from Mountain River using branded elk venison into selected customers around the world, giving us confidence to keep doing what we do. This is very exciting for us as Elk/Wapiti breeders as this will encourage (with good planning) to achieve greater returns from venison per hectare.

This is a great incentive to use Elk Terminal Sires to supply these niche markets. I encourage you to talk to Mountain River Processors which should give you confidence in using these great animals as a terminal sire.

I am a great believer in being market led. New Zealand farmed raised venison leads the way in this concept, but it will need continuous discipline between the marketers, processors and the farmer going forward if we are to improve on the current returns. I would encourage farmers to supply to the processors that are using the Cervena Brand. This is now a well-known brand in the market place, and is trusted by the end users.

This year we have what I would call a more Wapiti type animal. These animals have had no special treatment, very much in their working clothes. They will suit a buyer who does not want the bigger elk but an animal with more Euro Red genetics in them.

These stags are of good sound structure, good bone and well fleshed throughout carcass. They are nice and quiet, and we are impressed with their weaning weights and spring growth rates.

As a family we would like to mention the retirement this year of two deer stock agents from PGG Wrightson, Graham Kinsman and Ron Schroeder. These two have been great support to us here at Raincliff and we wish them all the best for their futures. We welcome Luke Thompson to the deer industry and look forward to your involvement

We would like to take this opportunity to thank family, friends, past and current staff for their continued support throughout the last twelve months. Any prospective clients are welcome to visit prior to sale day. Either call David or one of the agents on the back page of this catalogue. Wishing current and future purchasers a Merry Christmas and a prosperous new year.

See you on the 8th of January 2024. Bacon Rolls and Hot Drinks from 9am.

Kind Regards, David, Janet and Family.

Conditions of Sale

1. Sale will be conducted by PGG Wrightson, according to the NZ Stock and Stations Agents Association of Sale
2. Intending purchasers are required to register at the office to receive a buyer's number.
3. Each Lot shall become the property and responsibility of the purchaser when sale is declared.
4. Terms are cash unless prior arrangements have been made with PGG Wrightson.
5. Sale will be conducted GST exclusive.
6. Delivery instructions must be filled in and given to our clerks.
7. 4% commission to outside stock companies of independent introducing buyers prior to commencement of sale.

Disclaimer

All details and descriptions as to stock referred to in the catalogue have been supplied to PGG Wrightson, its employees and agents make no representations or warranties to acknowledgement of any kind whatsoever in relation to any part of this catalogue (including, but not limited to the accuracy or completeness of details and descriptions of stock and the information and other contents).

Purchasers, advisors and all other persons viewing or dealing with the stock must make their own assessment and judgement on the stock and the information in the catalogue.

PGG Wrightson, its employees and agents are not responsible or liable in any way whatsoever, whether in contract tort (Including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information representation included in our omitted from the catalogue.

Transport

We are supplying transport with Downlands Deer, Otago Deer Transport, Central Deer Freighters, or ourselves throughout the South Island. If this is not your preferred option then please ring David Morgan to discuss options.

TB and Johnes

All Sales Bulls Paralisa Blood tested Johnes Negative. TB Status C10.

Grazing

Grazing is available for a limited period while making transport arrangements. All care and no responsibility.

Animal Health

All animals will have received cydectin injection, Hi-min oral drench and a 20 gram copper bullet when cutting regrowth prior to sale or prior to loading out to new purchaser. This we would recommend again post rut.

Guarantee

If a bull is proven to be sterile within 12 months of purchase it will be replaced by

an animal of similar quality. This guarantee refers specifically to sterility and not to any condition due to accident or illness.

Bull Inspection

Prospective buyers are welcome to visit prior to sale day. Please make arrangements with either your livestock agent or directly with David Morgan. Inspection on the day is from 9:30am.

Insurance

Insurance facilities will be available on the day. Timaru FMG's team; Abbie, Nick and Simon.

Refreshments

There will be morning tea before the sale and a venison BBQ after the Auction.

Growth Rates

You will notice we have put growth rates from birth, we do not tag or weigh at this time. We have put a normal birth weight in at 15kg and a nominal average birth date of 8th December. I would like to think this is a fair average.

Weights

We weaned this year's crop of Sale Stags early March 2021 and weighed, which is quite early for us. The next weigh was in October 2021 and then in December 2021. This gives us a good indication of their spring growth rate, turning grass into carcass weight. We are very pleased with the performance of this crop of yearlings at this stage.

We have continued to eye muscle scan all the yearling stock giving us another tool for selection criteria. We have also D.N.A all Elk/Wapiti stock on the farm to help improve future breeding decision, as to that you will notice we have done an Elk% for all Bulls for sale, which is run through Genometer and Genomnz Invermay.

Unable to make the sale?

Buy online on bidr[®] in 3 easy steps:

1

Sign up at **bidr.co.nz** and add your agency account under account details.

2

Browse auctions to find livestock you are interested in buying.

3

Login and register for the real time online auction to bid for the livestock you wish to purchase.

Our partner agencies:

Why use bidr[®]?

- Free to sign up
- Nationwide reach
- Bid from anywhere
- View auctions and sales results
- Pay for your purchases through your livestock agency account

Contact your bidr[®] Representative to sign up at **bidr.co.nz**

Online Auction with bidr®

This sale will be hosted by bidr® (www.bidr.co.nz) as a HYBRID auction, with online bidding and a live-stream available on sale day, as well as the normal on-farm format. All intending ONLINE purchasers must register on bidr® in advance of the sale date, by visiting the website and using the “sign up” button, adding their contact information and nominating the agency they would like to purchase through and account held with that agency. Alternatively, purchasers can organise an agent from one of the agencies listed on bidr® to buy on their behalf. The bidr® team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from the Waikato. Please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point. Alternatively, contact your local bidr® representative:

Keep calm in the shed

For quieter, calmer, stress-free days in the shed, make the change to quality deer matting.

Anti-slip, non-abrasive, soft on the hoof and quiet underfoot, our durable matting ensures deer are calm and easy to handle. For healthy deer and healthy returns, trust Numat matting.

"Numat has been in our sheds for a number of years. It provides a quieter environment for deer handling, minimises injury, and is easy to clean. We have no hesitation in endorsing Numat."

WHEN YOUR ADVICE IS REALLY GOOD, EVERYONE LISTENS.

At FMG, we look after more rural New Zealanders than any other insurer. In fact, it's something we've been doing for 114 years now. So when it comes to offering specialist advice, like protecting deer sheds and farm buildings, we like to think we know what we're talking about. Ask around about us. Or better still call us directly on 0800 366 466.

We're here for the good of the country.
